If you work in geology or somewhere outdoors, a regular, fragile laptop won't cut it. This is because the game requires high amounts of processor power and graphics performance. A good option for players, one that doesn't break the bank, is the Gigabyte SabrePro 15. [CC0/rawpixel/Pixabay](#) Buying a new computer is a great opportunity to do some exploration in search of the best technology. This provides plenty of storage space for business papers or school assignments. The refurbished purchase, however, will save you several hundred dollars on the regular price. Free Laptops You can get a laptop completely free if you know where to look. With the Lenovo N22 Chromebook, you get a computing device that you can use on the Internet for under \$200. These computers run Google Chrome OS instead of traditional desktop operating systems. Dealers often sell inventory of used laptops that have been remnant of the factory or refurbished laptops that look new. A \$1,000 computer today will hold many times more processing power and memory than a million-dollar computer in the 1980s. MORE FROM LIFE123.COM This iconic laptop has a sleek design and boasts specifications that outperform class most other laptops on the market. Best rugged laptop Sometimes, the environment requires a rugged laptop.
